Global logistics software group, WiseTech Global, acquires leading French customs solutions provider, EasyLog

WiseTech Global today announced the acquisition of EasyLog, a leading provider of customs management solutions in France.

Headquartered in Franconville, France, EasyLog offers a range of customs clearance and tracking solutions, including a direct link with French Customs, to ensure efficient and accurate customs management for customers including freight forwarders such as DHL Global Forwarding, Nippon Express, Acte International, and DSV, as well as first party logistics customers such as Air France Industries, Sanofi and Salomon.

WiseTech CEO, Richard White, said "EasyLog joining the WiseTech Global group is the key next step in building out our European customs capabilities. France is the second largest importer and exporter in Europe¹ so a strong local footprint and local commitment here is essential. Combining EasyLog's well-regarded customs solutions with the powerful CargoWise One integrated platform will help us to deliver a deep, comprehensive French customs solution for our regional and global customers."

"Bringing the EasyLog management and customs expertise into the group complements our recent European acquisitions in Belgium, the Netherlands, Ireland, Germany and Italy. We are looking forward to working together with Alain and his local team of customs experts on enhancing our customs solutions for France and native French customs to CargoWise One."

EasyLog Managing Director, Alain Gronier, said "We have dedicated 18 years to building up our advanced customs and transport logistics solutions, delivering exactly what our different customers need for their business. Joining the WiseTech Global team will allow us to continue working with our freight forwarding, logistics and import/export customers in France, and to accelerate our product development to ensure they receive the most productive and effective tools."

With operations remaining in France under the leadership of Alain Gronier, EasyLog will be integrated within the WiseTech Global group and EasyLog will continue to deliver its logistics software solutions directly to its own customers, along with WiseTech's integrated global logistics platform, CargoWise One.

CargoWise One enables logistics service providers to execute highly complex transactions in areas such as freight forwarding, customs clearance, warehousing, shipping, land transport and cross-border compliance and to manage their operations on one database across multiple users, functions, countries, languages and currencies.

This transaction follows WiseTech's other recent customs and logistics solutions acquisitions in Belgium, Ireland, North America, Australasia, Italy, Germany, Netherlands, Brazil, and Taiwan,
